ES3510MA-DC
L2 Fast Ethernet Standalone Switch

Product Overview
The Edge-Core ES3510MA-DC is a high-performance Fast Ethernet Layer 2/4 switch featuring 10 ports; 8 10/100 Mbps ports and 2 combination Gigabit Ethernet RJ-45/SFP (Small Form Factor Pluggable, dual-speed 100/1000 Mbps) ports. It is ideal for Fast Ethernet desktop connectivity and wiring closet installations. Using IP Clustering in a virtual stack of up to 36 switches, the whole stack can be managed as a single entity with a single IP address. This switch is packed with features and is a cost-effective solution that brings continuous availability, enhanced security, and advanced QoS to the network edge, while maintaining simplicity of management.

Key Features and Benefits

Performance and Scalability
This entry-level managed switch provides 5.6 Gbps wire-speed switching performance across all ports. This enables the switch to fully support existing high-performance PCs and laptops, which significantly improves application response times and the speed of large file transfers.

The two Gigabit Ethernet combination ports enable uplink flexibility, offering copper or fiber uplinks to servers or the network backbone.

Continuous Availability
IEEE 802.1w Rapid Spanning Tree Protocol support provides loop-free and redundant links to the core network with rapid convergence, which ensures a faster recovery from failed links and enhances overall network stability and reliability.

The IEEE 802.1s Multiple Spanning Tree Protocol runs STP per VLAN base (up to 32 instances), providing Layer 2 load sharing on redundant links.

Multicast VLAN Registration (MVR) is designed for applications such as Media-on-Demand that stream multicast traffic across an Ethernet network. IGMP snooping prevents the flooding of IP multicast traffic and limits bandwidth-intensive video traffic to only ports connected to subscribers.

The voice VLAN feature enables access ports to carry IP voice traffic from IP phones.

IEEE 802.1Q Tunneling (Q-in-Q) is designed for service providers carrying traffic for multiple customers across their networks.

Comprehensive QoS
Traffic is prioritized according to 802.1p, DSCP, IP precedence, and TCP/UDP port number, giving optimal performance to real-time applications such as voice and video.

Asymmetric bidirectional rate-limiting, per-port or per-traffic class, preserves network bandwidth and allows maximum control of network resources.

Enhanced Security
Port Security limits the total number of devices that can access a switch port based on MAC address, and protects against MAC flooding attacks.

IEEE 802.1X port-based or MAC-based access control ensures all users are authorized before being granted access to the network. User authentication is carried out using a standard-based RADIUS server and supports dynamic VLAN assignment and a guest VLAN.

Access Control Lists (ACLs) can be used to restrict access to sensitive network resources by denying packets based on source and destination MAC addresses, IP addresses, and TCP/UDP ports. ACLs are hardware supported, so switching performance is not compromised.

Secure Shell (SSH v1.5/v2.0) and Secure Sockets Layer (SSL/HTTPS) encrypts Telnet and web access to the switch, providing secure network management.

TACACS+ 3.0 Authentication for applications such as network access or IP mobility enables centralized control of the switch and prevents unauthorized users from altering switch configuration.

Private VLANs isolate edge ports to ensure user privacy.

Simple Management
An industry-standard Command Line Interface (CLI), accessed through the console port or Telnet, provides a convenient way to configure and troubleshoot the switch.

IP Source Guard can be enabled with DHCP snooping on trunk ports with a large number of VLANs to filter and control IP traffic access to the network.

DHCP snooping provides security by filtering un-trusted DHCP messages and by building and maintaining a DHCP snooping binding table.

DHCP Option 82 is feature that adds device information to client TCP/IP configuration requests that are relayed to a DHCP server.
ES3510MA-DC Product Specifications

**Features**

### Physical Ports
8 10/100Base-TX ports  
2 Combination Gigabit (RJ-45/SFP) ports  
(SFP ports support dual-speed 100BASE-FX/BX and 1000BASE-SX/LX/ZX)  
1 RS-232 RJ-45 console port

### Performance
Switching Capability: 5.6 Gbps  
Packet Buffer Size: 4 MBit  
MAC Address Table: 8K

### L2 Features
- Auto-negotiation for port speed and duplex mode  
- Flow Control:  
  - IEEE 802.3x for full-duplex mode  
  - Back-Pressure for half-duplex mode  
- Spanning Tree Protocol:  
  - IEEE 802.1D Spanning Tree Protocol (STP)  
  - IEEE 802.1w Rapid Spanning Tree Protocol (RSTP)  
  - IEEE 802.1s Multiple Spanning Tree Protocol (MSTP)  
- VLANs:  
  - Supports 255 IEEE 802.1Q VLANs  
  - Port-based VLANs  
  - IEEE 802.1v Protocol-based VLANs  
  - GVRP  
  - Support Q-in-Q  
  - Support Voice VLANs  
- Link Aggregation:  
  - Static Trunk  
  - IEEE 802.3ad Link Aggregation Control Protocol  
- IGMP Snooping:  
  - IGMP v1/v2 snooping  
  - IGMP Querier and Filtering  
- MVR (Multicast VLAN Registration)  
- Supports jumbo frames up to 10 KB

### IPv6 Features
- IPv4/IPv6 Dual Protocol stack  
- IPv6 Neighbor Discovery  
- SNMP over IPv6  
- HTTP over IPv6  
- Remote IPv6 ping

### QoS Features
- Priority Queues: 4 hardware queues per port  
- Traffic classification based on IEEE 802.1p CoS, IP Precedence, DSCP, TCP/UDP port number  
- Supports WRR and Strict scheduling  
- Rate Limiting (Ingress and Egress, per port base)  
  - FE: Resolution 64 Kbps ~ 100 Mbps  
  - GE: Resolution 64 Kbps ~ 1000 Mbps

### Security
- Port security  
- Supports IEEE 802.1X port based and MAC access control  
- Dynamic VLAN Assignment, Auto QoS, Auto ACL  
- MAC-based authentication, Web authentication  
- Voice VLAN, Guest VLAN  
- RADIUS authentication  
- TACACS + authorization and accounting  
- TACACS+ 3.0  
- L2/L3/L4 Access Control List  
- SSH (v1.5/v2.0)  
- SSL

### Management
- Switch Management:  
  - CLI via console port or Telnet  
  - WEB management  
  - SNMP v1, v2c, v3  
- Firmware & Configuration:  
  - Firmware upgrade via TFTP server  
  - Multiple configuration files  
  - Configuration file upload/download via TFTP server  
- Supports RMON (groups 1, 2, 3 and 9)  
- Supports BOOTP, DHCP client for IP address assignment  
- Supports DHCP Option 82, DHCP Snooping  
- Supports SNMP  
- Event/Error Log/Syslog, SMTP  
- Supports LLDP (802.1ab)  
- Support IP Source Guard  
  (Optional) ECView Pro: Powerful network management software that maximizes the managed capabilities of Edge-Core devices with:  
  - Topology Management  
  - Performance Management  
  - Configuration Management  
  - Event Management  
  - SNMP Management

### Mechanical
- Dimensions (W x D x H): 195 mm x 115 mm x 36 mm (Smaller Form Factor)  
- Weight : 0.68 Kg (1.5Lbs)  
- LED Indicators: Port, Uplink, System, Diagnostic

### Safety
- UL (CSA 22.2. NO 60950-1 & UL60950-1)  
- EU (IEC60950-1)

### Electromagnetic Compatibility
- CE Mark  
- FCC Class A  
- CISPR Class A

### Environmental Specifications
- Temperature:  
  - IEC 68-2-14  
  - 0ºC to 45ºC (Standard Operating)  
  - -40ºC to 70ºC (Non-Operating)  
- Humidity: 10% to 90% (Non-condensing)  
- Vibration: IEC 68-2-36, IEC 68-2-6  
- Shock: IEC 68-2-29  
- Drop: IEC 68-2-32

### Power Supply
- DC Power Input  
  - 36 to 75 VDC, 0.373 A  
- Power Supply Connector  
  - 48 VDC supply circuit  
- Power Consumption  
  - 32 Watts maximum

### Warranty

**Ordering Information**

### Optional Accessories
- ET4201-SX  
- ET4201-LX  
- ET4201-LHX  
- ET4201-ZX  
- Network Management System

### Product Description
- 1 Gbps, Small Form Factor Pluggable (Distance: 500 m; Wavelength: 850 nm)  
- 1 Gbps, Small Form Factor Pluggable (Distance: 10 km; Wavelength: 1310 nm)  
- 1 Gbps, Small Form Factor Pluggable (Distance: 40 km; Wavelength: 1310 nm)  
- 1 Gbps, Small Form Factor Pluggable (Distance: 80 km; Wavelength: 1550 nm)  
- ECView Pro Network Management Software
