

ECS4100 Series Notice

MASS PRODUCTION RUNTIME VERSION COMPARISON TABLE:

Old license library version	New license library version
ECS4100 V1.2.36.191	ECS4100 V1.2.60.191

HARDWARE COMPATIBILITY:

- **ECS4100-12T/28T/52T/28P/52P/26TX/26TX-ME** S/N: **after EC2022001011** must use runtime V1.2.60.191 or later of the runtime.

** Previous shipments will not be affected by this regulation **

Please **DO NOT downgrade** to the old firmware version once you upgrading the runtime to V1.2.6x.xxx version, or you may fail to linkup the switch port.

If the switch has been repaired by RMA, the license will be changed to newer one. Thus, the switch could not use old firmware version.

If you have any problem, please contact with Edgecore Technical Support Team for help:
