

# EM4660-10G SFP+

## 10-Gigabit SFP+ Ethernet Expansion Module

### Product Overview

The 10-Gigabit SFP+ Ethernet Expansion Module is a single-port 10 Gigabit Ethernet (10G) module with one Small Form Factor Pluggable+ (SFP+) slot. The SFP+ slot is a 10G capable slot that supports standard 10G SFP+ transceivers.

### Key Features and Benefits

#### Product Features

- IEEE 802.3ae 10 Gigabit Ethernet
- LED indicator
- Cost effective SFP+ solution, enables greater bandwidth
- Low power consumption
- hot-swappable
- EM4660-10G SFP+ (R) module, installs in the switch's right slot.
- EM4660-10G SFP+ (L) module, installs in the switch's left slot

#### General Specifications

- Port:
  - 1 slot for 10G SFP+ transceivers
- LEDs:
  - PWR, LINK
- Dimension:
  - 135.1 x 82 x 24.7 mm (5.31 x 3.22 x 0.94 inches)
- Weight:
  - 123 g (0.27 lbs)
- Communication Speed:
  - 10 Gbps/Full Duplex
- Network Interface:
  - SFP+ slot
- Standards:
  - IEEE 802.3ae 10 Gigabit Ethernet

#### Environmental Specifications

- Operation
  - : 0°C~50°C, 5%~95% RH
- Storage:
  - 25°C~55°C, 10%~100% RH
- Transportation:
  - 40°C~70°C, max. 95% RH

### Ordering Information

#### Optional Accessories

EM4660-10SFP+(R)/(L)  
 ET5402-LR  
 ET5402- SR

#### Product Description

10-Gigabit SFP+ Ethernet Expansion Module  
 10G SFP+ Transceiver, 1310nm Wavelength  
 10G SFP+ Transceiver, 850nm Wavelength
